## The Price of Sibling Tensions Takes Centre Stage

Saint John Theatre Company to present Arthur Miller's *The Price* next month at the BMO Studio Theatre

SAINT JOHN - Step into the emotionally charged world of Arthur Miller's critically acclaimed and Tony-nominated play, *The Price*, a masterful story that explores sibling rivalry and the challenging journey towards reconciliation.

Presented with a mix of empathy, humor, and deep understanding, this production

promises to engage and move its audience. The death of their father brings estranged brothers Victor and Walter Franz back to the attic of their childhood home, setting the scene for an emotional confrontation filled with hidden feelings and unresolved issues that have lingered over the years.

Directed by Dean Turner, this gripping production invites audiences to witness a poignant and often heart-wrenching journey. *The Price* goes beyond the story of sibling rivalry to offer a profound exploration of the human condition, emphasizing the delicate balance between personal ambition and family obligations.

*"It is always exciting to be working on a play by Arthur Miller. The Price is not one of Miller's best-known works, but it is a fascinating character study of four people as a father's estate is finally wound up and old grievances come to the fore to be aired and maybe settled. We have a great cast and production team bringing you this family story so sit back and return to the 1960's for The Price,"* adds Director Dean Turner.

This production promises to deliver an engaging and thought-provoking experience that will stay with audiences long after the final curtain falls. Make sure to join us at the BMO Studio Theatre from February 19-22, 2025, at 7:30 PM. Tickets are \$30. To order visit [www.saintjohntheatrecompany.com](http://www.saintjohntheatrecompany.com) or call 506-652-7582.

Support for this project has been graciously provided by Canadian Heritage, the Pannell Family Foundation, the James Venner Russell Foundation, and BMO.
